Code of Research Ethics

Paper Title:

I hereby pledge that in accordance with the research ethics regulations of Chosun University Linguistics Convergence Research Institute, as well as regulations regarding paper submission and writing, I have complied with the following during the process of preparing the manuscript:

1. I have not engaged in fabricating or falsifying data or research results.

2. I have not distorted research content or results by artificially manipulating or altering data.

3. While I have referenced the research results of others by providing proper citations, I have not misrepresented any part of them as my own.

4. I have accurately acknowledged and reflected the contributions of individuals who have directly or indirectly contributed to the research, including official collaborators or contributors to publications, and have not made improper author attributions.

5. I have not submitted the manuscript as a new research work when it has been previously published or is under review or scheduled for publication elsewhere.

6. I will make every effort to incorporate the opinions provided during the review process into the manuscript. However, if I do not agree with the opinions, I will present the reasons and justifications to the editorial committee.

< Self-Assessment Checklist for Research Ethics >

Category		Checklist	Yes	No
Forgery	①	I have made, recorded, or reported nonexistent data or research results.		
Falsification	②	I have distorted research content or results by artificially manipulating or altering the research process (procedure) or data.		
Plagiarism	③	I have utilized others' original ideas or works that have already been published without proper attribution.		
	④	I have used others' original concepts (terminology), vocabulary (phrases), sentences, paragraphs, graphics, tables, pictures, data, etc., without citing the source.		
	⑤	I have paraphrased or summarized others' writings without citation.		
	⑥	I have translated and utilized parts or substantial portions of foreign language papers or books without proper citation.		
	⑦	I have used translated versions of others' works without proper citation.		
	⑧	I have failed to indicate re-quotation (re-citation) when necessary and have cited the source as if I had directly consulted the original document.		
	⑨	Even though I have cited the source correctly, the amount or quality of the citation exceeds the reasonable scope, and there is a main-secondary relationship between the cited material and the citation.		
	⑩	When using others' works (one or more individuals), I should have cited all of them, but I have cited only some of them.		
	⑪	I have indicated that I referred to a significant portion of others' works but, in reality, I have directly copied them.		
Duplicate Publication	⑫	I have used my previous works without proper citation.		
	⑬	I have cited only some or inaccurately cited my previous works.		
	⑭	Even though I have cited the source, the content cited in the research report exceeds the reasonable scope quantitatively or qualitatively.		
Improper Author Attribution	⑮	I have not given authorship to someone who is qualified as an author.		
	⑯	I have given authorship to someone who is not qualified as an author.		
Preven	⑰	I have not checked the adherence to research ethics in		

tive efforts		the process of reviewing and utilizing external commissioned or manuscript-requested results.		
	⑱	I have not taken minimal preventive measures such as software checks for research reports or research outcomes.		
I hereby confirm that I have diligently checked the above items to comply with research ethics during the preparation process of the manuscript submitted to this research institute. Author (Signature)
